

Jewellery E-Commerce Project Blueprint

1. Homepage Architecture

Top Banner: Dynamic display of live gold/silver rates and scrolling promo codes.

Price Tier Navigation: Quick links for Under 999, 1999, and 4999.

Shop By Category: Dedicated sections for Him and Her.

2. Shopping & Product Experience

Filtering: Users can filter products by In-Stock/Out-of-Stock and Price Range.

Product Pages: Detailed descriptions optimized for non-size-oriented pieces.

Customization Page: Showcasing 5-8 custom pieces with a direct "Inquire on WhatsApp" link.

3. Admin & Support

Track Order: Customer-facing portal for order status lookup.

Admin Panel Requirements:

Feature	Purpose
Banner Manager	Update hero and promo banners.

Order Management	View and process incoming customer orders.
Inventory Upload	Add new jewellery items with images/specs.
Coupon Tool	Create and manage discount codes.
